UTENOS KOLEGIJA
HIGHER EDUCATION INSTITUTION

Erasmus+

Blended Intensive Programme (BIP)

Transport and Logistics Business Innovations: Managerial and Legal Solutions

Virtual Component (Online) | **23–27 November 2026**

Online Programme

Tuesday, 24 November 2026
17:00 – 18:30 (LT, UTC+2)

Welcome and Participants' Introductions
- Welcome to the BIP programme: objectives, structure and expected outcomes.
- Short presentations by participating institutions and students (2 slides per institution, approx, 3–5 minutes).

Introductory Lecture 1. Transport and Logistics Business: Current Challenges and Trends
Overview of transport and logistics markets, business challenges, digital transformation, sustainability and innovation opportunities.

Wednesday, 25 November 2026
17:00 – 18:30 (LT, UTC+2)

Introductory Lecture 2. AI-Driven Innovation in Transport and Logistics: From Business Problems to Practical Solutions
Applications of generative AI, large language models (LLMs) and automation tools in transport and logistics. A practical example from a logistics company: from problem analysis to a digital solution.

Thursday, 26 November 2026
17:00 – 18:30 (LT, UTC+2)

Introductory Lecture 3. Transport Law in Lithuania, in the European and International Context
Key legal framework for transport operations, EU transport policy and international conventions.

Preparatory Task Briefing
Explanation of the individual assignment, requirements and its use during the physical component. Q&A.

Participants' Presentations – 24 November

Students from each partner institution: prepare a short online presentation (2 slides) to introduce:

1. **Slide 1 – About Our Institution**
   Present your university or college: name, location (country, city), main study fields/programmes and key characteristics or strengths.
2. **Slide 2 – About Our Participants**
   Introduce your student team: names, study programmes, academic interests and your expectations for the BIP (what you hope to learn, gain and contribute).

Preparatory Individual Assignment

Transport System and Logistics Market in Your Country

Prepare a presentation of **up to 10 slides** that analyses the transport and logistics sector in your country (overview, market characteristics, challenges, innovation opportunities and an international perspective).

Presentation date: **1 December 2026**
During the physical component at Utenos Kolegija Higher Education Institution in Utena, Lithuania.
